School Pricing

One price per school, per year.

What it is	Inlighti turns SEC 10-K filings into classroom Investigations for teachers and students.
Billing	US dollars, per school, per year. Each plan includes a set number of students.
Trial price	Free during the trial. A trial school that subscribes after the trial keeps the trial price until the end of the school year, June 2027.

A school can go over the number included: each extra student is billed at the rate shown. You never pay more than the next plan: if the extra students would cost more than moving up, we move you to the next plan instead.
